

Compact hydraulic power unit type HKL

Technical specifications	
Type of device	Hydraulic power unit
Size	3
Design	Oil immersed motor operating modes S1, S6
Pump type	Radial piston pump and / or gear pump
pmax	Radial piston pump 700 bar Gear pump 200 bar
Qmax	Radial piston pump 17.36 lpm Gear pump 23.9 lpm
Geometric displacement	Radial 0.86 - 8.7 cm ³ /rev Gear 0.8 - 14.5 cm ³ /rev
Max. motor power	2.65 kW
Motor type	Single- or three-phase
Filling volume	3.7 l - 13 l
Useable volume	1.7 l - 9.1 l
Mounting position	Horizontal

Features and benefits:

- Long life and high reliability through use of radial piston pumps
- By small oil filling volume environmentally friendly and with low disposal costs and low costs for hydraulic fluid
- Continuous operation
