

Servo power unit type HS

Technical specifications

Type of device	Hydraulic power unit
Size	120
Design	Power unit with reversible servomotor
Pump type	External gear pump
pmax	155 bar
Qmax	4.8 lpm
Geometric displacement	1.6 cm ³ /rev
Max. motor power	0.83 kW
Motor type	AC-Synchronmotor
Useable volume	1.4 l
Mounting position	Horizontal

Features and benefits:

- Low noise emission
- Compact design
- No further valves required for reversal due to reversing operation
- Reduced installation effort
